

LEMON GROVE TAX RATE, '56-57 Series, GIVEN

Lemon Grove Review

Vol. 9; No. 5

LEMON GROVE, CALIFORNIA

THURSDAY, SEPTEMBER 20, 1956

10¢ PER COPY

A preview of your county tax bill, 1956-57 series, has been compiled. The breakdown includes 16 Lemon Grove Code areas, viz:

Base County Rate	\$1.99
County Library	.07
School	1.79
High School	1.84
AL. SCHOOL	\$3.62

Additional charges for various annexations, with different rates for various portions of district, not yet announced officially.

Metropolitan Water Authority .25
County Water Authority .09
Lemon Grove Fire .56
Grossmont Hospital .10
Lemon Grove Sanitation (On land & imp. only) .33

You will note that total school tax rate is up 25¢ but the elementary school tax rate is up only one half of one cent. The other 24¢ cents is attributed to the high school and junior college district.

Grossmont Hospital District is down 10¢ and L. G. Fire District is up 4¢ to 56¢, not 66¢ as the metropolitan newspapers erroneously reported. The 56¢ includes 3¢ bond retirement which actually will be retired in 1960.

L. G. Sanitation District (on land and improvements only) is down 13¢.

These rates are based on each \$100 assessed valuation. The total tax bill will be about the same as last year's, possibly \$4 more. Wilber Easton, county tax collector, will send you and 265,000 others a bill-doux about October 25, giving the exact figures.

Please note that no Rolando Sanitation District is listed. There are 16 code areas in Lemon Grove School District, and you can learn which code area applies to you by referring to the rubber stamped list on the back of your last year's bill. Go on from there.

P. S. Maybe your assessment was raised by Mr. Eddy, before he "resigned."

Public School Population Is 3124 At Opening

Classrooms filled to capacity but fortunately did not bulge when the school bell rang on September 11 last week for Lemon Grove pupils. Anticipating an enrollment of 3240, the district saw a total of 3124 children register in the elementary schools here. This record-breaking number is expected to go still higher during the coming month.

According to Superintendent Byron Netzel, existing facilities, planned well in advance by the board and administration, adequately cared for the swelling number of students, but they are being used to capacity. Five sixth grades are now housed at the intermediate school on School Lane and Lincoln to provide classroom space at the four elementary schools and thus avoid double sessions.

A total of 100 classroom teachers, five special or district teachers, and seven administrators complete the present certified staff in the Lemon Grove District. The average class size for teachers is about 31 pupils, a promising figure when compared with many other districts in Southern California.

Figures released this week by S. K. Solleder, assistant superintendent, show 363 children in district kindergartens with 287 pupils assigned to the eighth grade.

Breakdown by schools shows the intermediate or junior high school

with the largest enrollment, twenty-two classes and 755 pupils. Others are San Miguel, 650; Monterey Heights, 624; Golden Avenue, 553; and Vista La Mesa, 542.

Twenty-nine teachers are new to the Lemon Grove District this fall. Beginning next week, the REVIEW will run a series of special articles featuring these new teachers and thus introducing them to the community.

Water Ordered For Mount Miguel High School

The Grossmont High School District this week deposited \$17,145 as inclusion fees with the Helix Irrigation District for the final step in acquiring water for the new Mount Miguel High School site on Sweetwater Road.

The high school will serve Lemon Grove and Spring Valley. Bids are scheduled to be called for in November and construction will commence in December. Water service lines will be laid to coincide with the start of construction.

Developers of the Bollenbacher and Kelton 400 acre tract south of Mount Miguel have been negotiating with Helix for water but they have deferred action pending similar negotiations with the city of San Diego. Service to their approximately 1,800 houses would require a much larger

Lemon Grove Republicans To Mark Ike's Birthday With Rally Dinner

Lemon Grove Republicans will salute President Eisenhower's birthday Saturday October 13th at a Republican rally dinner at Michael's, according to Roy Erwin, president of the L.G. Republicans Club.

Program will be announced in the next issue of this newspaper. Reservations may be made through any of the club's officers. They are: Erwin, HO 6-5233; Mrs. K. D. Land, HO 3-2647; Mrs. Paul Harvey, HO 6-3807 and Mrs. A. P. Schnell, HO 6-5239.

GREAT-GREAT-GRANDMOTHER MARKS 104th BIRTHDAY

George Howard presents an orchid to his mother as she passes another birthday milestone.

The 104th birthday of Mary J. Howard who is presently living at the Cresta Loma Guest Home at 7922 Palm Avenue in Lemon Grove, was marked by visits from her children, grandchildren and some great grandchildren.

The widow of an Illinois farmer, Mrs. Howard noted with pleasure the orchid presented to her by her son George, who lives in La Mesa. Other children brought remembrances, too. Not all of the family members attended because there were too many but most of the adults did. There are four children, five grandchildren, nine great-grandchildren and five great-great-grandchildren. Grandson Ward Howard attended the get-together.

George, pictured above, another son, Charles, and a daughter, Mrs. Lillie Messenger live in La Mesa. Another daughter, Mrs. Helen Mayer, lives in Illinois.

Great-Great-Grandmother Howard enjoys company, especially her family. She refers only occasionally to the Civil War which

was begun when he was nine years old. She likes to talk politics. "I voted for Eisenhower last election and I'm going to vote for him again," she says firmly. The family thinks grandma is "quite a girl."

8 to Run for 3 Non-Pay Hospital Board Seats

Eight men have filed for three posts on the Grossmont Hospital board of directors. Election will be held November 20th, two weeks after the general election. Filing deadline was Saturday.

Those listed as candidates are Dr. Gilbert Chassy, Lemon Grove physician-surgeon; Frank L. Foster, Brookside insurance man; Jack Atkinson, El Cajon businessman; Robert Clodfelter, attorney who resides in El Cajon; Robert Dryden, banker of Fletcher Hills.

R. Marvin Jackson, Forace Boyd and Homer Streich, all incumbents, filed earlier.

THINGS DOIN' & BREWIN' About Civic Center

By DICK HENDERSON

Hearing on proposed amendment of the County Zoning Ordinance, (No. 1402-New Series) and proposed change of classification of property as recommended by county planning commission, with an urgency clause to take effect immediately, was set for 11:15 Tuesday, after a three day holiday, when the 106th birthday of California was celebrated.

Dr. Miller explained the recommended changes in the ordinance, chiefly farm areas being cut up into acre tracts.

We suggest that you wait for publication of the ordinance and get a clear picture. For instance, Zone A 2 includes poultry, A3 means Dairy, with a minimum of one acre. I couldn't keep up with Dr. Miller's explanation, but evidently the members of the board understood the changes, for the amendments were passed without a dissenting vote, including the urgency clause.

Petition of Paul T. and Josie Fern Brington for reclassification of portion of Lot 10, Sub No. 3 of Lot 12 of Rho Mission, Lemon Grove Section, from R-2-A to C-2 Zone, including additional area initiated by the planning commission. Eleven welfare matters were approved.

Neon Directional Sign To be Underwritten By Chamber of Commerce

A neon directional sign will be installed by the L.G. Chamber of Commerce near the College Avenue cloverleaf. Bruce Harms, president, said.

A San Diego sign company conducted a survey to determine the most effective location. The sign will direct eastbound traffic on the freeway to the Lemon Grove business district. The sign stand will also carry local service club emblems.

The sign will be erected in time for Christmas business although exact location nor financial arrangements have been worked out yet.

The second leg of the freeway will be opened in March or April

Supervisor Bird Will Head Program at Friendship Hall

Lemon Grove's representative in county government, Supervisor Dave Bird, is being presented to the people of Lemon Grove by the Social Action committee of the First Congregational Church of Lemon Grove. Supervisor Bird will answer questions about county government, Lemon Grove, policies and procedures, and other related items in open meeting in Friendship Hall, the social hall of the First Congregational Church at Main and Church Streets in Lemon Grove, Sunday evening, at 7:30 p.m.

Moderator of the meeting will be Mr. Byron Lindsley, well known attorney. Mr. Lindsley will ask Supervisor Bird questions from a list which has been prepared and submitted by the members of the church through the Social Action committee. Questions may be asked from the floor and will be answered as time and the program permit.

This presentation is the first of three "University of Life" social action forums being sponsored by the First Congregational Church. It is made with the

hope residents of Lemon Grove will avail themselves of this opportunity to become better acquainted with the functioning and the personalities of county government. Answers provided by Mr. Bird may help those with complaints against the way things are done or not done to see that there may be good reasons for things being as they are. And, maybe, some citizens may find out that there are things which they as citizens can do to improve the things which they think need improving.

The meeting is open to everybody and everybody is welcome.

Hundred New Members For Eucharistic Guard

Lemon Grove Court Teresa of Avila of the Catholic Daughters of America served dinner to 200 persons at St. John of the Cross Church on Sunday following the enrollment of nearly a hundred men and women in the Eucharistic Guard sponsored by the Knights of Columbus. The Most Reverend Bishop Richard Ackerman, auxiliary for the Diocese of San Diego, performed the ceremony. Members of Balboa Assembly Fourth Degree Knights

of Columbus formed a color guard.

Rt. Rev. Msgr. Frederick Wexman was toastmaster. Among other priests present were Father Lauerma of Fletcher Hills, Father Barry and Nightingale of La Mesa, Father O'Leary of San Diego, and Msgr. McDonagh and Father Young of Lemon Grove. Frank O'Connor was chairman.

Mrs. Margaret Korpita was in charge of the kitchen, and the dining room was under the direction of Mrs. Helen Bolshagay. Decorations were red and white.

Mrs. Lucy Rosiak is grand regent of the court.

AUTOS BANNED!

La Mesa's Main Stem May Become Pedestrian Paradise

Conversion of La Mesa's main thoroughfare, La Mesa Boulevard, into a tree-lined pedestrian mall, closed to auto traffic, has been recommended by La Mesa's downtown merchants as a means of combatting decentralization in the Jewel City.

If plans of more than 30 merchants jell, La Mesa Boulevard will be closed from Spring Street to Third, with only pedestrian traffic permitted. A recently formed parking district would handle much of the off-street parking north and south of the mall with two metered parking areas.

Palm Street, connecting La Mesa with Spring Valley and Lemon Grove, would be left open with a turning circle at the intersection with La Mesa Blvd. No through traffic would be permitted on Palm.

Cost of the project will be borne by the merchants and it is estimated the expenses of rearing the five children will be borne by the Lees.

The money in the bank will not be touched except as each child reaches 21, Pierik said.

The children are Anita Louise, 11; Yvonne Annette, 10; William Albert, 9; Joyce Adele, 5 and Lewis Marvin, 3. Their parents were Albert Warren Fenn, 50, and Mrs. Marcia Elizabeth Fenn, 37, of Lakeside. The Lees have been the five orphans' foster parents since February 27, when the juvenile court arranged for the placement.

After solemnly pronouncing the Lees one family, Judge Turrentine said: "I have received a very favorable report of the entire family set-up. These children now have the same rights as your own children."

Bonita Family

Adopts Five Rail Orphans

Readers of the REVIEW may remember an account printed some months ago of the adoption by a Bonita couple of the five Feeny children of Lakeside, both of their parents having met death in the Santa Fe wreck in the Los Angeles yards, when 30 persons were killed. Here follows a happy ending to the tragic affair, settled by Judge Turrentine August 13 in Superior Court.

The five Feeny children, who were orphaned January 22, now have a new father and mother, besides two new brothers.

They were legally adopted by Lloyd L. Lee of Bonita, a general contractor, and his wife. The Lees have two older sons of their own.

Lee's attorney, Paul V. Pierik, said the money given by the Santa Fe Railway, as a settlement for their natural parents' deaths, will be held by the Security Trust and Savings Bank of San Diego as guardian.

Judge Turrentine, who accepted the railroad's offer of \$112,500 on May 8, estimated the children would have more than \$9,000 after payment of attorney and guardian fees and other items. Neither the principal nor interest from the money will be used in supporting the children, attorney Pierik emphasized. He

The Dimmer VIEW

By MAX GOODWIN

A few days ago this newspaper commenced its ninth year of publication.

When the paper made its initial appearance, Broadway and Imperial was little more than a crossroads and the population was less than 7,000 souls.

It's a relatively easy thing to dip into limbo and make a comparison between then and now. Few writers, however, care to compare today with a period yet to come because that takes some imagination and work. More important, it gives him a million chances to be wrong with little to gain if he is accidentally right. I like to live dangerously, so here we go.

Based solely on the cloudy image in a dusty crystal ball, we'll prove here and now there is no future for a crystal gazer or a tea-leaf reader.

What I see in Lemon Grove in the Year of Our Lord 1960 which is just for years away is truly astonishing.

In 1960 there will be 12,000 homes or more than 45,000 persons. Today there are 4,500 homes. The boundaries of our community will have shrunk because the fringes will continue to undergo a constant nibbling away by the city of San Diego. This shrinkage will have stopped somewhere along the line but only because the community elected to annex to San Diego.

The decision to annex will have been reached when the reduced boundaries made the tax rate for needed services too expensive. The City of San Diego, after annexing the area, will have stabilized the boundaries so that those municipal services for which we did some horse-trading during the negotiations preceding annexation, could be more easily administered.

By this time the water district will have been in the throes of a revolution by which all water districts in Southern California will eventually emerge as an entity. This will have been super-induced by the 1958 "dry" year where water consumption will be arbitrarily rationed at 50%. This will lead to consolidation of all districts so new lines bringing water from within California sources may be more easily distributed. Some of our water will come from the sea.

The Sanitation District of Greater San Diego, which will include this and adjoining areas, will be under a new, huge issue of bonding to pay for a revolutionary type of disposal system by which, through scientific development, sewage can be transformed into usable irrigation product at a reasonable cost via the atom.

Your county tax bill will be at least 25% greater partly because of inflation but also because the assessed valuation formula catching up with the value of the property.

I'm not guaranteeing that these things will come to pass but it is not as foolish to believe as it would be to believe that this area will look and be somewhat the same as it is today.

Paste this column onto your breakfast table and if, in four years you find I'm wrong, you are entitled to one personal apology. This you will get by calling my number on your new atom-powered television-phone.

Trailer Trippers Camp in Season's First Snow

Bill and Lil Morris, Spring Valley home owners who left some months ago for a year's vacation, have reached Snowship, Montana, and under date of September 8, write "Did you ever live in an area where you had snow in your backyard in September?"

"Imagine our feelings, receiving a query in the midst of a blizzard, at a time when we had just had a week's vacation in the snow. The letter was from our former newspaper pressman and his wife."

Lil, who is "secretary" of the firm, says by back yard she means part of the one million acres which constitute Glacier National Park. "We are camped in Flathead Park area. We have no electricity or water to the trailer, but have butane lights. As for water, we have a bubbling brook nearby, water clear as crystal and tests 98% pure."

"At night, sometimes a chipmunk will jump or fall down from the trees above and use the top of the trailer for a skating rink. We are about 4,000 feet altitude, which makes for two blanket cold sleeping." Many times we light the heater to take the chill from 'Betsy' the trailer.

"Bill is helping an ex-army captain build an extra bedroom and bath on his cabin. Glacier National Park lies in the most rugged section of the Montana Rockies. There are more than 60 glaciers and many lakes. We can look over the forests of evergreens and see snow the year 'round. In fact, we had snow here on Sept. 2. It melted as soon as it hit the ground. About seven miles east of us, east of the Continental Divide, six inches of snow fell. Saddle horses are available and pack trips can be taken into the back country, where best fishing is found. We have seen a number of bears and elk, but may not be here when hunting season opens September 15."

"We saw in the REVIEW that Chan Mason and family were vacationing in McLeod, southeast of us. Here and at Bar Harbor, Maine, (Mt. Desert Island) are the two places we have enjoyed the most."

"When we get back home we will have been in Mexico, Canada and all states in the Union except three. We have enjoyed our trip all the way, and have had no outstanding expense except tires. Hope to be back in Lemon Grove in a few months."

"Regards to all, the best to the gang at the REVIEW."

Mrs. Dilley will have classes in Lemon Grove in photo oil, and water color painting from 1 to 4 p.m. each Monday at VFW Hall and in El Cajon a class will meet in Adult Center, Friday, 9 to 12.

A class will be held in San Diego Art Institute, Balboa Park, in House of Charm, on Tuesdays, 10 to 2:30.

Register at the class. Further information available from Mrs. Dilley, 3665 MacArthur, Lemon Grove, JU 2-2320.

Incidentally, Mrs. Dilley has a one-man show of paintings at San Diego Art Institute, in Balboa Park's House of Charm which is very pleasing. The public is invited to visit the gallery on Wednesday, Friday, Saturday and Sunday afternoons from 1 to 5 o'clock. Only works of local artists are on exhibit, and the showing is changed each month.

Mrs. Dilley painted a 3x5 foot photo oil mural for Conrad's Mortuary which has attracted favorable mention. Mr. Conrad invites the public to see this work.

"REALITY" CHRISTIAN SCIENCE LESSON-SERMON

The Golden Text of the Lesson-Sermon on "Reality" in all Christian Science churches Sunday is from Philippians (4:8), "Whatever things are true, whatsoever things are honest, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things."

From one of the two preachers, the Bible, this verse from the Revelation of St. John the Divine will be read: "And I saw a new heaven and a new earth: for the first heaven and the first earth were passed away; and there was no more sea" (Rev. 21:1).

Juvenile Work Permits Expire This Month

The office of the superintendent of schools, San Diego County, today reminded working minors and their employers that permits to employ and permits to work will expire September 17. This applies to minors under 18 years of age who live in San Diego County or who attend San Diego County Schools with the exception of Sweetwater Union High School District and San Diego Unified School District.

A minor who wishes to continue working after the opening of the 1956-57 school term must submit a new application which has been completed by the employer, signed by his parent or guardian, and by the school of attendance. Work permits will automatically be extended for minors who have completed the twelfth grade and who will reach their eighteenth birthday within the next few months.

Application blanks may be obtained from the school attended by the minor or by calling CY-press 8-4181, Extension 275. The completed applications should be sent to the office of the Superintendent of Schools, San Diego County, 209 Civic Center, San Diego 1. If it is necessary that a minor obtain a work permit immediately, he should bring his completed application form to the pupil personnel service of the office of the Superintendent of Schools, 4005 Rosecrans, Building 8, San Diego 10.

Take Care in Handling Rabbits

The first human case of tularemia to occur in San Diego County this year was reported in July. Tularemia is a disease which may occur in any warm-blooded animal but is found most commonly in rabbits.

The disease, which produces an irregular fever, is 5 per cent fatal in humans. It is usually transmitted by handling infected animals or by the bite of blood-sucking insects. The recent case occurred in a boy who was infected when he handled a squirrel shot by his father in Mission Valley.

Any person who becomes ill after a fishing or hunting trip on which he handled wild animals should see his doctor. The best prevention against tularemia is to wear rubber gloves always when handling live or dead wild animals and to avoid bites of blood-sucking flies or ticks. It is also important for hunters to remember that the meat of wild rabbits should always be quite thoroughly cooked.

Brookside to Retain School Bus Service

The board of trustees of the La Mesa-Spring Valley School District at last Tuesday night's meeting indicated that the school bus service in the Brookside area will be continued until such time as Golf Drive is improved.

Golf Drive itself is in very bad shape where it goes over the hill from Brookside to Spring Valley. But as a spokesman from the school district pointed out, it's no worse than many other by-ways where the children have to walk to school.

Patterson Hyndman New School Board Member

Patterson (Pat) Hyndman of 9475 Tropico Drive, La Mesa, at the Spring Valley north gate, was named last Tuesday to fill the vacancy on the board of trustees of the LM-SV School District. The vacancy was created by Art Dahlquist who recently resigned due to ill health.

A petition of over 250 names sponsored by the Committee for Good Schools, headed by Miles Nagel, was presented, as was a letter from Glenn Major, asking that Hyndman be considered for the post.

Others whose names were presented were Al Freeland and Jim Curto. Hyndman was elected unanimously. He will take his seat at the next meeting.

Pat Hyndman and his wife Bonnie have two children who attend school in this district. Janet 13, and Jimmie 7. Pat is operating partner of the San Diego Auto Lease Company and advertising manager for the Pearson Ford Company. He is president of the University of California Alumni Association of San Diego County and a member of the Kiwanis Club.

He has been active in the YMCA, Boy Scout movement, and the San Diego Chamber of Commerce. He worked with Assemblyman Sheridan Hegland to get a branch of the University of California established in La Jolla.

SEED SEPARATORS WANTED BY STATE

The State of California is seeking seed experts to help protect farmers against expensive crop failures.

Officially known as Seed Analysts, these state employees systematically sample seeds on the California market. They issue "stop-sale" orders, against sub-standard offerings.

The analysts are also alert to noxious weed seeds mixed in commercial lots.

Beginning jobs as Seed Analyst I at \$341-\$395 are open to college graduates in botany, agronomy or truck crops. Seed analysis experience, however, may be substituted for educational requirements.

Detailed information and application forms are available from the state department of employment offices on Columbia Street.

Helix Schedule Listed As Football Curtain Rises

Skull-knocking time is well in evidence on the grassy gridirons throughout the nation. With beefy, sweaty linemen grunting through their routines, barking quarterbacks commanding the strategy of the field and quick, darting halfbacks scampering wherever a hole exists, King Football once more rules high school, college and pro camps.

Out Helix High School way Coach Tom Welbaum, popular head grid mentor, is shaping, moulding and readying his Highland warriors for this season's battles. An unusual situation occurred this year in the Metro League, which consists of Helix, Grossmont, El Cajon, Chula Vista and Sweetwater. The schools play each other twice. Traditional rivals play each other only one time. Helix and El Cajon have to play seven league games while Grossmont, Chula Vista and Sweetwater play only six. Personally I don't like this new arrangement and I know many, many students are disgruntled over the set-up. I quote Coach Welbaum, "All the coaches are abiding by this new temporary rule as we agreed upon it, but I would prefer to play each school just one time every season."

Helix's gridiron schedule for 1956: Friday, September 21, Helix vs Chula Vista, Metro League gridiron, Aztec Bowl, 8 p.m. (one quarter); Friday, September 28, Helix vs El Cajon at Helix, 8 p.m.; Friday, October 5, Helix at Chula Vista 8 p.m.; Friday, October 12, Helix vs Sweetwater at Aztec Bowl, 8 p.m.; Friday, October 19, Helix at Palo Verde, 8 p.m.; Friday, October 26, Helix vs Grossmont at Helix, 8 p.m.; Friday, November 2, Helix vs El Cajon at Helix, 8 p.m.; Friday, November 9, Helix vs Chula Vista at Helix, 8 p.m.; Friday, November 16, Helix vs Sweetwater at Helix, 8 p.m.; and Friday, November 23, SCIF play-offs, Balboa Stadium, 8 p.m. (Hint! Hint!)

Following are some staccato statements on football that I hope will be of some assistance to old or new players. Maybe someone where in this group of thoughts someone can glean a helpful hint as to his future.

If there ever was a secret to becoming a great athlete the answer, according to UCLA coach "Red" Saunders, would probably be "develop your legs and hands." Use them as much as possible. Walk, skip, run and jump; standing and walking on your hands, push-ups, squeezing rubber balls are all good for development. . . . If you're worried about your lack of speed, don't be. Speed is a born gift, you can't always improve it but you can learn to be quick. . . . It is a commonly known fact that every high school guy does not have to be interested in football. Only those with a real interest in the game should play. By not playing football doesn't mean you're a "squirrel," "square," "chicken," or "baby" as many fellows think people will label them. Remember, there are several other sports, especially the scholastic game.

If following graduation, you're interested in college and want to be sure that your selection is the correct one do the following three things: Visit the campus, meet and talk with the players and coach, and get as much info on the school as you can.

A football field during a game is as harmless as a boy playing baseball in his own back yard. . . . Light sturdy equipment is a lot better than a lot of heavy equipment. A helmet should be heavy and well padded. . . . and if you always watch where you're going and think fast, your chances of never getting injured are excellent. . . . As far as I can see, the greatest weakness a high school player can display is lack of "blocking." Whether the coach doesn't spend enough time on that particular important fundamental or whether the boy isn't physically ready to block might be the answer. . . . The way to get ready for college ball is to play a lot of high school ball. Running, tennis, handball and swimming are excellent conditioners. You won't learn football any better by reading about it. Lifting weights in your garage or gym. Playing the actual game is the best way.

Remember, whether you are 12

The Better Business Bureau warns Lemon Grove and Spring Valley residents to beware of advertised offers to "clean, oil and adjust" your sewing machine or vacuum cleaner for a charge of 50 cents to \$1.50.

Such bait offers are often used to get the salesman's foot in your door, sometimes resulting in a big bill for unnecessary parts and labor.

If in doubt, find out! Write or call your Better Business Bureau in the Spreckels Building for a free bulletin on the subject—BE 3-7711.

A rescuator roll was made in answer to a call at the home of William Weed, 7544 San Rafael. A family member was administered oxygen and later removed to Grossmont Hospital.

Chief Hensley and Captain Carmody attended the Southern California Fire Prevention meeting Friday at Chula Vista. Control of natural gas was studied. A display of air crash work by NAS was also made.

CHURCH GROUP HEARS

TALK ON WORLD OIL. International furor over the Suez crisis dramatizes the folly of depending on foreign oil to fill the gap left by California's growing oil deficit.

This fact developed last week by Leonard C. Tower, Richfield Oil Corp. representative, before members of the Lemon Grove Methodist Church, Washington and Golden Aves.

Tower emphatically stated that Proposition 4, the Oil and Gas Conservation Act on the November 6 ballot, is vital to national defense since it will double the state's recoverable oil supply and to that degree minimize reliance on oil from abroad.

HEAT KILLS 45 CHINCHILLAS

The extreme heat of last week claimed the lives of 45 chinchillas belonging to Mr. and Mrs. Harold Wager of La Mar Street, Spring Valley. About ten others were saved with ice and cold wind circulation.

Reports from other parts of Spring Valley indicated there were very few other mortalities. As to the poultry situation, some of the raisers lost a few, but nothing compared to last year. It seems as though most people were prepared for the heat this year and took extra precautions.

The price of chinchillas is from \$45 to \$80 according to the quality of the pelts. That is wholesale.

Government Business Should Pay Taxes

Says Legislator

"When government competes with private business, government should pay taxes," according to Assemblyman Sheridan Hegland speaking before the San Diego Chapter of the Certified Public Accountants, Hegland said that the preservation of free enterprise made it necessary that legislation be passed requiring payment of in lieu taxes. The meeting was held at the Town and Country Club.

"As government enters the field of private business more property becomes tax-exempt and this imposes added burdens on small business and home owners," Hegland said.

"The State Highway Department often purchases right-of-way up to 8 years in advance of use of the land. In the meantime the Department rents it and has become one of the biggest landlords in the State. Last year the Highway Department made a profit of four million dollars in tax-free rentals," Hegland said.

Other projects which should pay taxes, he said, included publicly-owned gas and power companies and transit lines.

From BILL'S SELF SERVICE

ACTION

LETTERS TO THE EDITOR

(Continued)

Dear Editor:

When President Eisenhower recently signed a bill making the punishment for the conviction of illegal sale of narcotics more severe and even making possible the death sentence for the illegal sale and distribution of heroin, it was universally acknowledged as important and worthy legislation. There is no question but that such drastic punishment is not only very necessary but the enactment of such legislation is long overdue.

Narcotic addiction, fostered and fathered by the illegal sale of narcotics by vicious and absolutely unprincipled criminals who show complete disregard for human rights and life, is a very serious and growing problem undermining the very basis of the American way of life. All too often the victim is a youth snared in the horrible mesh of hopeless addiction.

Because of this profound affect upon youth, Optimist International viewing its aim and objective to "aid and encourage the development of youth throughout the world," in a convention assembled at Houston, Texas, in June, 1954, did adopt a resolution that urged the enactment of severe penalties including the death penalty for the illegal sale of narcotics. This resolution, phrased in the more definite and uncompromising terms, was unanimously adopted.

Since then Optimists everywhere have worked continuously and vigorously to influence legislators and law enforcement officials to effect the enactment and passage of such legislation. Obviously it is with a sense of real pride that Optimists recognize the achievement of the goal they worked so hard to accomplish. Now, of course, it is important that our judiciary have the strength and courage to use these new laws and punish narcotic violators in the degree necessitated by their horrible crimes.

It is our sincere conviction that this legislation will do a great deal in removing and eliminating the most vicious and degenerate criminal alive today, the illegal vendor of narcotics.

Sincerely,
Harry Wilson

Dear Editor:

My family and I have lived in Lemon Grove for over seven years. We own our home at 2862 Cypress Ave. It has always been our policy to support the community in which we live.

However, in spite of our trying to be good citizens we have been made the victim of thieves. Last night our automobile was parked in our yard within thirty feet of our house yet thieves came through closed gates into our yard and took the hub caps from our car. What was the value? About twenty-five dollars (\$25).

Mr. Editor, it is not the value of the hub caps that I regret losing. It is the low moral principles of some person or persons in our community which make me wonder if Lemon Grove is falling to the level of some other communities which you perhaps know about.

I am not resorting to sentiment but I do want these low down thieves who stole those hub caps to know from whom they stole them (as if they didn't already know). Remember the automobile accident which occurred on Montezuma Drive last April 11? My wife and I were the victims of that piece of recklessness also. She is still flat on her back in bed and has to be turned three and four times each day. I have not fully recovered and am still under the doctor's care. It will be many months before my wife walks again.

Now, I ask this unprincipled thief, wouldn't you like to come and pay us another visit in daylight and see the people you robbed? You won't have to bring the hub caps with you! One look at my wife alone would make your black heart turn white.

Mr. Editor, if I may be so bold, I would like to make one suggestion. Perhaps if the sheriff would stop these young punks who speed around this area about every evening and check for their driver's license he might find leads to a lot of interesting things.

Sincerely yours,
Russell Toole
2862 Cypress, L.G.

It is little solace that a person's misdeeds will come back to roost. If the culprit becomes conscience stricken enough to repent and will return the hub caps to me, I will get them back to the owner without incriminating the "thief".

The editor

Dear Editor:

You may think I have rocks in my head, and that I may, but

I think they're lemons. As our fast growing community expanded, the lemon groves disappeared and it has bothered me ever since we moved here that there are no more lemons in evidence.

Wouldn't it be nice to see lemon trees along the railroad tracks on Imperial or any other public place where a tree could be planted — even in wooden tubs in front of business houses? The dwarfs seldom grow higher than five feet tall, are pretty all year round, the leaves are green and shiny, the blossoms heavenly fragrant, and the fruit is large and showy. What could be more in keeping with the name of our town? How can we be Lemon Groves — Lemon Groves — just what is the term — without lemons?

Sincerely,
Leona Little
3852 Harris St.

They are Lemon Groves and the idea seems pretty good. Several years ago the Chamber of Commerce served free lemonade along the plaza. The ingredients came from a manufacturer in N.J. illustrating how far from lemons we've gotten. We've turned your letter over to the C. of C. to take up with the group which keeps the plaza looking so nice.

Dear Editor:

This letter comes in the form of a complaint, but first may I say that I think your paper is wonderful and so are you. I admire your campaign to keep local people shopping in Lemon Grove. The local business people have ample reason to be grateful to you and your paper, and I'm sure most of these fine people deserve and appreciate your support. However, I feel that some of these home-town merchants are not worthy of your good intentions.

May I mention here that I do not usually gripe about things and I am not a crank. I expect to be treated like others—wait my turn, be snubbed, rushed or short-changed occasionally—anything that can be considered human error. But to be deliberately made to feel like an unwanted customer is quite another thing. Following is an example of what I mean.

A short while ago I had occasion to have a suit dry cleaned, so decided to utilize the coupon in your recent "Get Better Acquainted" coupon book. I have redeemed several others and have found most people very cooperative and the coupons as good as gold. However, when I tried to redeem this coupon, I found it to be worthless. The owner of this independent shop—no chain outfit—explained that to be valid, the coupon must be presented with the article before it is cleaned. This is the only dry-cleaning firm in San Diego County that expects payment in advance. Furthermore, there was no stipulation to that effect, either on the coupon or in the establishment. I feel this was unfair and a strange way to build up their business or win customers.

Here is another unhappy incident. On Friday of last week I purchased an item at a small clothing store in Lemon Grove, locally owned and operated. The article was on display in the window of the establishment with a \$2.98 sign on it. Immediately after purchasing the garment and leaving the store, I sensed something was amiss. A glance at the sales slip showed I had paid \$3.98 instead of \$2.98. I returned to the store hoping to have the mistake rectified. There I was told the \$2.98 in the window was an error, and that these articles sold at \$3.98. I can understand an error, so didn't press the matter but asked for a refund. These people absolutely refused, saying they did not give refunds on sale articles. Yet they refused to sell the garment at the sale price. These people are not employees, but owners and local people as well. I have been a steady customer of this particular store for years and have recommended it to many friends. Hereafter, I shall shop at North Park or wherever I'm treated like a customer whom they hope will return.

Mr. Editor, are you a martyr to a lost cause?
Mrs. Lillian Collette
2520 Bonita St.

No, Mrs. Collette, the cause isn't lost. Local business firms are doing a bang-up job of keeping customers satisfied.

With our community growing so fast and with business people trying to keep geared up to the growth it is not surprising that a misunderstanding could happen now and again.

In the instance of the dry cleaner the owner told me that a bookkeeping procedure made it necessary to collect the coupon before accepting cleaning on the special offer. In the instance of the shop with the \$3.98 item the proprietor said that a misplaced price sign was to blame. In neither case did the business person wish or intend to offend.
